

# CALD SMART CITY BLUEPRINT PROJECT

---

---

# THE PROJECT

---

- 3-years (2019-2021)
  - Aims to assist select local governments under CALD member-parties to develop and make recommendations for their smart city blueprint
  - Supported by the Friedrich Naumann Foundation and CALD member-parties
-

---

# THE PLAN

---

- 2019 - Assessment tool to evaluate the current smart city status of target cities
  - 2020 - Travel to target cities and interview the political leaders of local government unit (LGUs) using the assessment tool questionnaire
  - 2021 - Organize a visit to learn best practices from other smart cities in the region
  - 2021 - Convene the representatives of the target cities for next steps forward
-

---

# WHAT'S IN IT FOR TARGET CITIES?

---

- Receive an expert assessment of their current smart city status
  - Opportunity to visit and learn from the best practices of established smart cities
  - Participate in a regional conference to link them with the different stakeholders
-

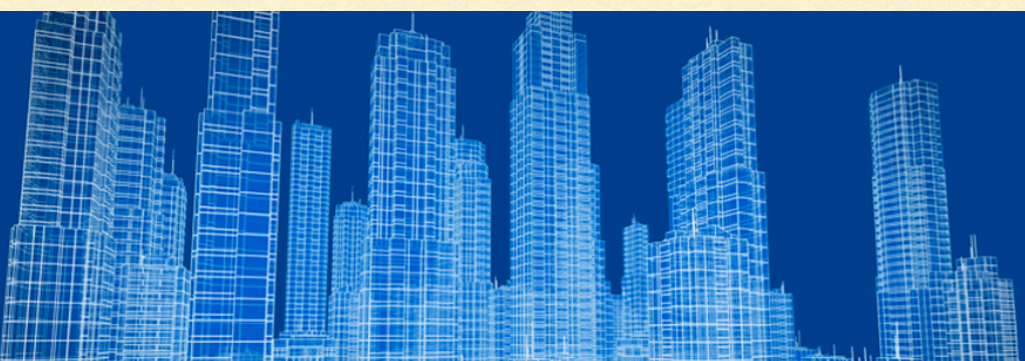

# WHERE ARE WE NOW?

CALD Preparatory Seminar-Workshop on Smart Cities: Towards a More Liveable Future  
10-14 June 2019 | Seoul, South Korea

# Towards a Smart City Blueprint in Asia: *A Guide for Political Parties*

PINGTUNG COUNTY, TAIWAN | 23 - 27 AUGUST 2019

- Present, get feedback, and finalize the preliminary CALD Smart City Assessment tool
- Identify possible interested local government units governed by CALD member-parties
- Enjoy and learn from Pingtung's smart city and tourism initiatives

---

# **WORLD CAFE WORKING GROUPS**

---

---

# TOPICS

---

- **Group 1 - ASSESSMENT TOOL**

Is the tool easily understandable? Are the words or phrases which are not clear to you? Are the questions comprehensive? Are there any questions that you would like to add?

- **Group 2 - ASSESSMENT PROCESS**

What are the necessary steps and approaches that could make the assessment process more efficient and effective?

- **Group 3 - OUTPUT**

As a city being assessed, what do you think should be the output? In your perspective, what is the incentive of the target city being assessed to participate in this project? What is the value added to the target city?
